The part-time Physician is a highly skilled healthcare professional who performs medical diagnostic and treatment services consistent with college student health needs and prevailing standards of care and best practices among medical practitioners in primary care and college health. Duties include providing direct patient care medical services to a wide variety of student patients, assisting in medical management and recommendations related to clinic functioning and to address worldwide threats to the health and safety of the campus participating in campus health education/promotion programs, and supervising PAs, NPs, RNs, and MAs. The goal of the Physician is to maintain a healthy campus and healthy students who can participate fully in the educational opportunities available throughout the University.
